PROFESSIONAL EXPERIENCE

Program Operations Associate

ALX Africa

Sep 2023 – Present

Remote

(Remote-first workforce development platform supporting distributed operations across 60+ countries)

Started as Program Delivery Intern · Promoted to Analyst, Jun 2024 · Promoted to Associate, Mar 2026

- Maintained 98% accuracy across operational records, content trackers, and programme documentation across 12 countries by standardising workflows and quality-checking processes.
- Coordinated digital content and communications calendars across multiple concurrent cohort launches — managing production schedules, reviewing materials pre-publication, and ensuring timely delivery to learners.
- Reviewed programme materials, workflows, and supporting resources before launch to identify gaps, inconsistencies, and quality issues, ensuring readiness prior to rollout.
- Created and maintained 10+ SOPs, escalation guides, and operational reference documents that improved onboarding consistency and reduced knowledge gaps across distributed teams.
- Supported online programme delivery for cohorts of 3,000+ learners by coordinating logistics, managing learner communications, tracking progress, and escalating issues proactively.
- Managed cross-functional coordination across Product, Data, Engineering, and Support teams to ensure digital resources and learning content were accurate and available for each programme cycle.
- Reduced manual operational work by 50%, saving 15+ hours weekly by streamlining coordination, tracking, and workflow processes through no-code automation and process optimisation.
- Designed onboarding materials and digital guides that supported smooth programme entry and contributed to 80%+ learner satisfaction scores.
- Leveraged ChatGPT and Claude to accelerate documentation, communication drafting, and operational research tasks.

Freelance PMO & Operations Consultant

Independent client engagement via Fiverr

Jun 2026 – Present

Remote

- Built and structured a client's project management operations in Asana for a pan-African advocacy programme covering 54 countries across Francophone, Anglophone, and Lusophone regions.
- Researched, validated, and organised a database of 93 nonprofit organisations across 35 African countries, cross-referencing multiple source lists before inclusion.

- Designed and scheduled a 26-session trilingual webinar calendar spanning a six-month programme cycle.
- Sent outreach communications to support partner engagement and the launch of a new advocacy network.

VOLUNTEERING & COMMUNITY LEADERSHIP

Community Secretary

OpenStreetMap Kenya

2020 – Present

Nairobi, Kenya

(Humanitarian open mapping community, partnered with government agencies and NGOs)

- Maintained community documentation, meeting records, and reporting materials that improved knowledge sharing and visibility across partner and stakeholder initiatives.
- Created onboarding resources and reference guides that helped new contributors navigate community processes and become active participants more quickly.
- Coordinated communications and administrative activities across community members, supporting smooth execution of ongoing mapping and outreach initiatives.

Project Coordinator 2023 – 2024

Remote | Volunteer

Tanzania Development Trust *(Community education and health NGO operating across East Africa)*

- Coordinated project logistics, stakeholder communications, and activity tracking across distributed volunteer teams supporting education and health initiatives.
- Maintained project documentation and progress reporting that improved visibility into deliverables, timelines, and ongoing activities.
- Supported onboarding and coordination of volunteers by providing guidance, resources, and operational support throughout project delivery.

Slack Community Manager 2020 – 2022

Remote | Volunteer

African Women in GIS *(Pan-African professional community for women in geospatial and mapping careers)*

- Supported onboarding and engagement for members across a distributed professional community by maintaining communication channels, community resources, and support documentation.
- Responded to member questions and directed inquiries to appropriate resources, helping create a positive and supportive community experience.
- Maintained community guidelines, resource libraries, and operational processes that improved consistency and knowledge sharing across the network.
